SCRIPTSAVE WELLRX PROGRAM is designed to make prescription drugs more affordable for everyone. It is not insurance. In fact, it is most valuable to people without prescription coverage.

The ScriptSave WellRx card is perfect for:

- Families with no prescription coverage
- Drugs not covered by insurance
- Those whose coverage has deductibles and limits

There's no limit to the number of times your card can be used. Plus you'll have access to coupons and special offers on over-the-counter medications.

Eligibility

Virtually everyone is eligible to participate in the ScriptSave WellRx prescription savings program. There are no income restrictions. It doesn't matter whether you have insurance. You can save on the drugs you are currently using, right now.

The only eligibility requirement is that you must be 18 years of age or older to get a card. But remember that you can still use the card to save on prescriptions you are buying for your children or anyone in your family of any age, even your pets.

** Savings average 28%, with potential savings of up to 50% (based on 2009 national program savings data).*
